Foiling

• • •

A RANGE OF FOILS AVAILABLE IN 50 COLOURS

Different profile base colours are available, creating aesthetic uniformity between the profile base colour and foil colours. The Elegant series is available in two mass colours, white (traffic white, ref. 003) and cream* (cream, ref. 096), and one semi-finish mass colour: dark grey (ambient grey, ref. 934).

The Elegant series features a broad range of foils for every style and taste. The colours are divided into four categories: natural wood, coloured wood, solids and metallics. The new colour palette lists all foils by category and in a logical colour order.
